SPEED? — AHEAD.

Speed is not an option. When it comes with leading-edge technology, advanced engineering and the highest levels of performance, it becomes a must. Toscotec allows you to reach this goal with its **AHEAD** line: high-speed tissue machines that achieve 2,200 mpm and produce high-quality tissue from virgin and recycled fibres with proven energy savings, top efficiency and reliability.

The performances your business was just waiting for.

Expanding the testing possibilities of tissue products

The newly installed in-house pilot plant in Mönchengladbach provides the opportunity to test the properties and performance of tissue products under realistic operating conditions. The customer can develop new prototypes to open up new market opportunities with low investment risk.
